INTRODUCTION

Nebraska law requires that anyone providing child care to four or more children at any one time from families other than that of the provider must obtain a license.

In 1993, a committee consisting of parents, home-based child care providers, and other interested parties was formed to assist the Department in developing regulations which provide for the physical well-being and safety of children in care. This booklet contains a listing of these regulations for providers who operate home-based child care facilities.

Although a child care license is not a guarantee of quality, it indicates that minimum health and safety standards have been met. If you would like more information on child care, please contact:

There is a need to establish and maintain licensure of providers of all such programs to ensure that providers are competent and are using safe and adequate facilities. The Legislature further finds and declares that the development and supervision of programs are a matter of statewide concern and should be dealt with uniformly on the state and local levels. There is a need for cooperation among the various state and local agencies which impose standards on providers of programs and there should be one agency which coordinates the enforcement of such standards and informs the Legislature about cooperation among the various agencies.

71-1909. Sections, Purpose.

- (1) The purposes of sections 71-1908 to 71-1917 are to provide:
 - (a) Statewide licensing of providers of child care programs; and

At the end of one year of operation, the Department shall either issue an operating license or renew or refuse to renew the provisional license. Such standards shall not require the use of any specific instructional materials or affect the contents of any course of instruction which may be offered by a program. If a city, village, or county adopts any rules, regulations, or ordinances establishing physical well-being and safety standards for providers subject to licensure under section 71-1911,
 - (a) such rules, regulations, or ordinances shall be identical to the Department's rules and regulations for licensed providers pursuant to sections 71-1908 to 71-1917, except that a city, village, or county which has rules, regulations, or ordinances in effect on July 10, 1984, which apply to programs furnished for two or three children from different families may continue to license providers of such programs, and
 - (b) the city, village, or county and the department shall coordinate the inspection and supervision of licensed providers to avoid duplication of inspections. A city, village, or county shall report any violation of its rules, regulations, or ordinances regulating providers subject to licensure to the director who may cause a written charge to be brought pursuant to section 71-1915. The city, village, or county may administer and enforce its rules, regulations, and ordinances establishing physical well-being and safety standards for providers of programs, except that the exclusive remedy for the violation of any rules, regulations, and ordinances regulating providers subject to licensure pursuant to section 71-1911 shall be by the director pursuant to section 71-1915.

71-1915. Violation; Charges; Content; Notice; Hearing: Penalty; Emergency Powers; Injunction.

- (1) Whenever the director has reason to believe that a violation of any provision of sections 71-1908 to 71-1914 or of any rule, regulation, or order of the Department has occurred, he or she may cause a written charge to be served upon each alleged violator. The charge shall specify the provision of sections 71-1908 to 71-1914 or the rule, regulation, or order alleged to be violated and the facts alleged to constitute a violation of such section, rule, regulation, or order. The provisional or probationary license of a person may be suspended or revoked if periodic review or inspection by the Department indicates that insufficient progress has been made toward compliance. The director shall provide for notice and, if requested by the alleged violator, a full and fair hearing at which each alleged violator shall answer the charges. The notice shall be delivered to each alleged violator by personal service, by certified or registered mail to his or her last-known address or by publication. Notice by publication shall only be made if personal service or service by mail cannot be effectuated. The alleged violator may request a hearing within ten days after delivery of the notice. Following the hearing, if held, or within fifteen days after delivery of the notice if no hearing is held, the director shall determine whether the charges are true or not, and if true, the director may:
 - (a) issue a declaratory order finding the charges to be true,
 - (b) revoke or suspend the provisional, probationary or operating license,
 - (c) issue a probationary license if the determinations of subsection (4) of section 71-1911 are applicable, or
 - (d) impose a civil penalty of five dollars for each child in the program for each day in violation after the Department issues its order finding a violation.

If the Department has initiated a license suspension or revocation, (i) such action may continue to finality even if the license of the licensee has been surrendered and (ii) household members of the licensee or current staff members of such licensee shall not become the licensee of the program while such action is pending.

- (2) Any civil penalty assessed and unpaid under subsection (1) of this section shall constitute a debt to the State of Nebraska which may be collected in the manner of a lien foreclosure or sued for and recovered in any proper form of action in the name of the State of Nebraska in the district court of the county in which the violator resides or owns property.
- (3) Whenever the director finds that an emergency exists requiring immediate action to protect the physical well-being and safety of a child in a program, the director may, without notice or hearing, issue an order declaring the existence of such an emergency and requiring that such action be taken as the director deems necessary to meet the emergency. Notwithstanding the provisions of subsection (1) of this section, such order shall be effective immediately. Any person to whom the order is directed shall comply immediately, except that upon application to the director, the person shall be afforded a hearing as soon as possible and not later than ten days after his or her application for the hearing. On the basis of such hearing the director shall continue to enforce his or her order or revoke or modify it.
- (4) In addition to the powers provided to the director in this section, he or she may petition the appropriate district court for an injunction whenever he or she believes that any person is violating any provision of sections 71-1908 to 71-1917 or any rule, regulation, or order adopted and promulgated pursuant to such sections. It shall be the duty of each county attorney or the Attorney General to whom the director reports a violation to cause appropriate proceedings to be instituted without delay to ensure compliance with such sections, rules, regulations, and orders.

71-1916. Department; Administrative Procedures. The department shall adopt and promulgate such rules and regulations, consistent with sections 71-1908 to 1915, as it shall deem necessary for (1) the proper care and protection of children by providers under such sections, (2) the issuance, suspension, and revocation of licenses for program providers, and (3) the proper administration of such sections. Hearings conducted by the Department pursuant to section 71-1915 and any other contested cases of the Department shall be in accordance with the Administrative Procedures Act. An appeal may be taken from the decision of the Department. The appeal shall be in accordance with the Act.

71-1917. Annual Report; Contents. The annual report required under subdivision (11) of section 43-2615 shall include:

- (1) The number of license applications received under sections 71-1908 to 71-1917;
- (2) The number of licenses issued under such sections;
- (3) The number of license applications denied under such sections;
- (4) The number of complaints investigated under such sections;
- (5) The number of licenses revoked under such sections;
- (6) The number and dollar amount of civil penalties levied pursuant to section 71-1915; and
- (7) Information which may assist the Legislature in determining the extent of cooperation provided to the Department by other state and local agencies pursuant to section 71-1914.
